

Project Branches

Portability (Kidus):

- Use Figma
- Mobile-friendly templates from LivePerson
 - Update to new template
 - Make a copy of website to test templates

Website Functions/Pages (Isabella & Alexa):

- Adding 24/7 resources
- Promote new SMS texting feature
- Fixing pop-up
 - Fix colors
 - Change layout to make purpose more obvious
- Adding widgets/plugins
- API to delete browser history
 - Or create a page/widget to inform users how to do it

Marketing (Alex):

- Marketing software
- Record data analytics on social media
 - Access to their accounts
- Promote/give flyers?
